### REQUEST FOR ALTERNATIVE MEANS OF COMMUNICATION FOR PROTECTED HEALTH INFORMATION (PHI)

#### Policy:

Pursuant to the Health Insurance Portability and Accountability Act of 1996 (HIPAA), individuals have the right to request reasonable alternative means of communications from health care providers in order to ensure confidentiality. It is important to ensure that individuals can receive communications regarding their Protected Health Information (PHI) in a means and location that the individual feels is safe from unauthorized use or disclosure. Urology Associates of Central California (UACC) will accommodate reasonable requests by individuals to receive communications of PHI from the UACC covered health care providers by alternative means or at alternative locations.

#### Procedure:

- 1. Patients must request alternative means of confidential communications in writing, using this form Request for Alternative Means of Communication. Reasonable requests include using alternative telephone numbers, alternative addresses, and allowing leaving messages of PHI on answering machines.
- 2. UACC covered health care providers will not require any explanation from the individual of the reason for the request as a condition of providing alternative communications on a confidential basis.
- 3. Knowledge of a violation or potential violation of this policy must be reported directly to the UACC HIPAA Privacy Officer, at 559-321-2873.
